**Title: Auto-Calibration Of Pointing Devices Used In A Computer User Interface**

**REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: As pointed out by the Applicant in the response filed on 12/21/2001, certain key features of the claimed invention are not taught or fairly suggested by the prior art of record. Specifically, the feature comprising an autocalibration technique for a contact to sensor surface type pointing device. Because none of the prior art teaches or suggests this element, this feature, taken together with the other limitations of the claims, renders the claims allowable over the prior art. Zimmerman et al. includes an autocalibration technique but fails to teach of said contact to the sensor surface produced by a pointer as claimed, and Schrum et al. which teaches of said sensor surface contact is disclosed by the same assignees the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David L. Lewis whose telephone number is (703) 306-3026.
